Re: International Channel Package Launch

Dear Manager, Office of Cable and Broadband Communications Williams:

We are pleased to share another enhancement we are making to our Xfinity TV offerings.

Comcast will launch up to 42 international channels and up to 30 new international packages in early December (starting on or around December 6th). This launch will give customers access to more international content such as Bollywood movies, Brazilian telenovelas and Chinese news, to name a few.

Xfinity TV customers who would like to purchase these new international offerings will need the necessary equipment to access this cable programming, e.g. X1 or the Xfinity Beta App on Roku.

When these new international channels and packages launch, we will have a dedicated landing page, which will provide additional information in early December.

Sincerely,

Josh Bokee
